出身国や外国で過ごした経験について教えてください :

I am from Pakistan; I did my master studies from China.
Currently I am enrolled in a PhD at Hiroshima University.

広島の子供・生徒たちにどんなことを学んでほしいですか :

I think kids/children should learn different cultures to expand their horizon and it would be a great opportunity for me to convey interesting aspects of our culture to Japanese kids. Intercultural activities are very important to get familiar with what is going on in other parts of the world.

自己紹介を自由に記載してください (写真などもお使いください) :

I am having great time since I came to Japan. I love Japanese culture and people as well. Japanese people are committed to their work and time management that I like the most. Moreover, it's unavoidable to talk about Japanese food and natural beauty. I love traveling and I often go to visit beautiful places around Hiroshima prefecture. I like Okonomiyaki since this is the special food of Hiroshima prefecture.
