

# Various Pumps

Creating the future with Water and Air.

TERAL [www.teral.net](http://www.teral.net)

More than 100 years of pumps and fans manufacturing. The core of Teral is our people and those who support us. With the long-standing efforts of the people gathered under Teral, we can continue to develop and give back.

TERAL develops a wide variety of pump & fan products and highvalue-added units that support efficiency, energy saving, and low noise. TERAL products contribute to the workplace improvements of production site and its surrounding environment in factories, large-scale plants, agricultural and livestock industries to name a few.
